

hazard(s)	mitig type	region	community	id	score	Keyword	strategy
all	emergency services	nc	all	nc1	5	generators	obtain generators for schools so that facility can be used as a shelter
all	emergency services	nc	all	nc2	5	contractors	develop and/or maintain an emergency contractor's list
all	emergency services	nc	all	nc3	7	utilities	have utility suppliers expedite damage assessment so that road crews can commence with cleanup activities.
all	emergency services	nc	all	nc4	5	residents on oxygen	ensure that fire departments have a list of vulnerable residents (ie, those on oxygen) in order to ensure that adequate care is provided.
all	emergency services	nc	all	nc5	5	vulnerable residents	provide residents with light sticks as a means of communicating with responders that there is a resident in need of assistance.
flooding	natural resource protection	nc	all	nc6	-1	stream monitoring	monitor streams to identify areas where significant blockages are occurring. Work with DEC and SWCD to clear and snag obstructions.
utility failure	emergency services	ne	all	ne1	5	national grid	improve communication with National Grid and encourage company to make a local dispatcher available.
all	emergency services	ne	all	ne2	5	shelters	work with the Red Cross to identify existing shelter areas and work toward having at least one shelter in each community. Potential shelters to be considered may include schools, municipal facilities, fire halls or any applicable structure.
all	education	ne	all	ne3	7	education	Provide public education about disaster preparedness.
all	emergency services	ne	all	ne4	3	generators	obtain generators for facilities that could serve as potential shelters such as the fire hall. Investigate sources of generators such as military surplus.
all	emergency services	ne	all	ne5	5	schools	Foster communication between school district and highway superintendents to coordinate road clearing with early dismissals.
winter storms	emergency services	ne	all	ne6	5	schools	ensure that there is an emergency contact for every student in the event of an early dismissal.
all	education	ne	all	ne8	5	education	Educate residents on the components of a home disaster ready kit including hand crank can openers.
all	emergency services	nw	all	nw1	5	generators	work with county or other appropriate entity to write grants to obtain funding for the purchase of generators for temporary shelters especially schools.
all	education	nw	all	nw2	7	education	educate residents on the benefits of creating home disaster-ready kits.
all	educational	oc	all	oc1	7	public education	Educate the public about hazard avoidance and preparedness. Include Red Cross, FEMA, CDC and other sources of relevant information in the Plan.
ice jams	preventative	sc	all	sc1	5	contractors	develop a contractor's list so that equipment, personnel and pricing can be easily referenced in an emergency.
all	preventative	sc	all	sc2	7	utilities	improve communication and coordination with utility companies (ie, National Grid). Specifically, expedite damage assessment so that road crews can begin repairs without electrical dangers.
all	emergency services	sc	all	sc3	3	shelter	identify facilities in the community that would be suitable temporary shelters; obtain generators where necessary; focus on the schools first.
winter weather	prevention	sc	all	sc4	3	schools	improve communication with school officials to ensure that roads are cleared by dpw prior to early dismissals.
all	property protection	sc	all	sc5	-5	acquisition	acquire land in disaster prone areas.
flooding	structural	sc	all	sc6	3	infrastructure	identify aging infrastructure
utility failure	structural	w	all	w1	7	tree pruning	identify dead and dying tree limbs located near power lines in order to reduce damage to utility lines.
all	emergency services	w	all	w2	5	shelter	identify potential temporary shelter areas and ensure that they are equipped with alternate power sources and are handicapped accessible.
utility failure	prevention	w	all	w3	-1	utilities	have utility companies turn power off to grid areas so that DPW crews can expedite cleanup work without endangering crews.

winter weather	prevention	w	all	w4	7	schools	communicate with schools to coordinate with dpw crews on early dismissals.
flooding	education	s	all	s1	7	education	educate homeowners on the differences between homeowners insurance and flood insurance via a workshop.
ice jams	prevention	sc	all	sc7	7	stream	continue working with the Sauquoit Creek Basin Coalition in order to address repetitive losses and recurring hazards in the watershed.
flooding	natural resource protection	nw	annsville	an1	-1	zoning	prevent development of riparian area of Fish Creek.
landslide	structural	s	augusta	ag1	1	erosion control	stabilize areas prone to repetitive erosion problems. This effects 2-3 houses only; the easier solution is to block off access to the road.
flooding	structural	s	augusta	ag2	3	culverts	Replace or repair a problem pipe in Knoxboro.
flooding	property protection	ne	ava	ava1	5	culverts	address flooding concerns for the resident on East Ava road.
winter weather	structural	ne	ava	ava2	3	wind break	work with NYSDOT to determine if the installation of a living wind break could alleviate snow drifting on Route 26.
all	emergency services	ne	ava	ava4	5	shelter	investigate the possibility of utilizing the town barn and Boy Scout camp for temporary shelters.
flooding	emergency services	nc	barneveld	bvld1	5	shelters	develop list of multiple shelters in event some are affected by flooding (such as Fire Hall)
flooding	structural	nc	barneveld	bvld2	3	clearing and snagging	develop procedure to monitor intersection of Cincinnati and Steuben creeks when water level is high to ensure debris doesn't dam up and cause flooding upstream
flooding	property protection	nc	barneveld	bvld3	1	barriers	create strategy with Town of Trenton to obtain sand bags in event flooding is severe and homes along creek need to be protected from flood waters via barriers
water contamination	emergency services	nc	barneveld	bvld4	5	supply	document and post existing standard operating procedure to switch over to Utica water supply in the event the village water supplies (springs/wells) are contaminated.
wind	prevention	nc	barneveld	bvld5	1	tree pruning	prune trees near utility lines to prevent power outages in severe storms
flooding	structural	ne	boonville	bv1	1	culverts	improve and maintain the storm drain system within the Village as well as at the Oneida County Fairgrounds.
flooding	structural	ne	boonville	bv2	1	drainageways	improve ditch maintenance efforts in order to reduce the threat of flooding.
flooding	property protection	ne	boonville	bv3	-1	acquisition	consider acquiring properties on Edmonds Road that are repeatedly flooded. These are the only properties in the municipality at repeated risk from flooding.
flooding	natural resource protection	ne	boonville	bv4	6	zoning	Discourage new residential and commercial construction in disaster prone areas. Ensure that subdivision review is in place.
flooding	preventative	s	bridgewater	bw1a	7	storm drains	investigate methods to improve storm drainage in the Village in order to reduce the impacts of floods.
flooding	structural	s	bridgewater	bw1b	-3	storm drains	make structural improvements to the storm drainage system in order to reduce the impacts of flooding.
flooding	property protection	s	bridgewater	bw2	3	clearing and snagging	work with DEC to obtain general permit for clearing and snagging activities in classified streams in order to reduce flooding.
flooding	preventative	s	bridgewater t	Bwt1	7	subdivision review	Review potential projects so that stormwater related flooding events are reduced in frequency.
winter storm	preventative	nw	Camden T	camT1	7	salt supply	keep an adequate inventory of sand and salt to prepare for winter storm and ice storm emergencies.
utility failure	preventative	nw	camden T	camT2	1	tree pruning	develop an inventory of and removal plan for dead or dying trees near utility lines.
flooding	preventative	nw	camden T	camT3	5	drainage	keep drainage ditches and culverts in good repair to prevent blockage and erosion.
water contamination	structural	nw	camden village	camv1	3	streambank	work with the DEC to address erosion at the sewage treatment plant.

flooding	preventative	nw	camden village	camv2	1	clearing and snagging	identify and remove stream obstructions in accordance with DEC permits in order to reduce the threat of flooding.
utility failure	preventative	nw	camden village	camv3	3	tree pruning	continue to identify and remove dead/dying tree limbs in order to protect utility lines.
flooding	prevention	nw	camden village	camv4	-1	storm drains	update mapping of stormwater system.
severe storm	emergency services	s	clayville	cly1	5	shelter	investigate shelter alternatives and ensure that portable power is available at appropriate facilities.
severe storm	prevention	s	clayville	cly2	3	zoning	review codes and zoning regs to ensure that structures meet minimum measures to withstand damage from severe weather.
all	emergency services	s	clayville	cly3	5	emergency plan	develop a village emergency response and remediation plan; ensure that all appropriate personnel are NIMS compliant; develop procedures for water supply.
landslide	natural resource protection	s	clayville	cly6	3	logging	ensure that logging operations within the village are completed by DEC certified foresters on land with forest management plans. In addition, require that erosion and sediment control practices are properly planned and installed on logging sites in order to eliminate offsite impacts.
dam failure	property protection	s	clayville	cly4	3	dam	inspect the existing dam in the village in order to determine the condition and if any remediation actions are necessary.
flooding	structural	s	clayville	cly5	1	clearing and snagging	address flooding and erosion in Sauquoit Creek and its tributaries; specifically, map areas that are susceptible to snags. Work with DEC in order to obtain a general permit for stream clearing and snagging activities.
flooding	structural	nc	deerfield	df1	5	culverts	identify and repair inadequate or damaged culverts.
fire	property protection	nc	deerfield	df2	5	broadacres	Work with County officials to address ongoing problems at Broadacres.
flooding	structural	nc	deerfield	df3	5	clearing and snagging	clear and snag in local streams to prevent blockage and flooding
all	prevention	nc	deerfield	df4	5	emergency plan	complete an emergency plan for the town.
flooding	preventative	nw	florence	flo1	3	acquisition	Develop a list of properties that should be acquired or elevated to address flooding concerns or alleviate the danger of any natural hazard.
flooding	emergency services	nw	florence	flo2	7	water supply	Identify emergency water supplies for residents whose wells may be affected by drought or contamination.
flooding	emergency services	nw	florence	flo3	3	warning system	Institute a standardized warning system to alert the public about anticipated events.
utility failure	prevention	nw	florence	flo4	1	tree pruning	Identify dead and dying trees to be removed near utilities.
utility failure	emergency services	nw	florence	flo5	1	shelter	Establish temporary shelters in the community.
utility failure	preventative	nw	florence	flo6	5	communications	Work with Verizon to ensure continuous phone coverage even when power outages occur.
all	education	nw	florence	flo7	7	contact list	Create a contact list for public viewing that includes contact information (agency, name and phone number) for officials that need to be reached during an emergency.
all	emergency services	nw	florence	flo8	5	equipment	Obtain and/or utilize snowmobiles, ATVs, four-wheel drive trucks, backhoes, loaders, graders, etc., to be used to open up impassible roads, in order to provide fire, medical, food and water or to evacuate residents of the Town of Florence.
fire	emergency services	nw	florence	flo9	3	generators	Install a generator large enough to run and accommodate large number of residents during a natural hazard (ice, wind, snow, utility failure, road closure, etc.)
utility failure	preventative	nc	floyd	Fld1	3	generators	Obtain funding for mutual aid generators for shelters, critical facilities and to assist vulnerable populations.
flooding	structural	ne	forestport	fp1	3	drainageways	maintain drainageways to prevent flooding in populated areas
all	education	ne	forestport	fp2	3	emergency plan	develop an evacuation plan for the Town
all	prevention	ne	forestport	fp4	5	vulnerable residents	coordinate with Meals on Wheels or other appropriate agency to identify vulnerable residents who may need assistance in an emergency.

flooding	emergency services	ne	forestport	fp5 & ava5	1	zoning	ensure roads zoned as private as well as those in proposed developments are constructed to accommodate emergency vehicles
wind	prevention	nc	holland patent	hp1	7	tree pruning	prune trees near utility lines and critical facilities to reduce likelihood of power outages in severe weather.
flooding	structural	nc	holland patent	hp2	1	clearing & snagging	clear and snag in local streams to prevent blockage and flooding
flooding	structural	nc	holland patent	hp3	3	culverts	investigate the possibility of increasing culvert capacity in the park in order to prevent flooding and protect historical assets.
flooding	structural	sc	kirkland	krk8	3	stormwater	identify methods to reduce flooding of Route 12B between Deansboro and Clinton. The flooding is related to runoff from the hillside on the west side of the road. A specific project at the Salzman property would prevent gravel deposits on the road by diverting overflows to the existing road ditch. Currently, the existing outlet pipe is collapsed and needs to be replaced.
flooding	structural	sc	kirkland	krk9	5	stormwater	work with developers of Hannaford and CVS to repair inadequate stormwater detention basins and infiltration trenches. Encourage continued maintenance on existing structures and consider requiring retrofitting of existing basins to meet current stormwater detention standards.
flooding	structural	sc	kirkland/clinton	krk/cl1	7	clearing and snagging	continue clearing and snagging activities in Oriskany Creek with DEC and SWCD in order to reduce the impact of flooding.
water supply contamination	property protection	sc	kirkland/clinton	krk/cl2	1	public water	provide public water to residents on Route 5 whose wells are contaminated by floodwaters and faulty septic systems.
utility failure	preventative	sc	kirkland/clinton	krk/cl3	5	alt power	investigate alternative power sources that are not dependent upon fossil fuels.
utility failure	emergency services	sc	kirkland/clinton	krk/cl4	3	alt water	investigate an emergency water supply.
utility failure	preventative	sc	kirkland/clinton	krk/cl5	3	tree pruning	identify and prune dead/dying tree limbs that are located near utilities.
flooding	structural	sc	kirkland/clinton	krk/cl6	3	berms	repair damaged flood control berms on Oriskany Creek.
flooding	structural	sc	kirkland/clinton	krk/cl7	-7	dam	remove the dam in Oriskany Creek located in Clark's Mills.
flooding	property protection	sc	kirkland/clinton	krk/cl10	3	stream	investigate changes in the stream network on tributaries of the Oriskany Creek in order to reduce the frequency of and damage associated with flooding.
dam failure	education	nw	lee	lee1	3	dam	work with the City of Rome to determine procedures/plans in place for dam failure protocol.
all	emergency services	nw	lee	lee2	5	shelter	utilize fireman's hall as temporary shelter
water contamination	prevention	nc	marcy	mcy3	7	emergency plan	work with tank farm proprietors to ensure that emergency plans are in place and up to date.
flooding	structural	nc	marcy	mcy1	3	culverts	replace culverts underneath rail road tracks in order to increase flow capacity
wind	prevention	nc	marcy	mcy2	2	tree pruning	prune trees near utility lines and critical facilities to reduce likelihood of power outages in severe weather.
all	emergency services	s	marshall	ml2	7	shelter	develop a plan to provide temporary shelter to residents in the event of a disaster. This may include obtaining generators for facilities and ensuring that the facility is equipped to accommodate a generator.
flooding	structural	s	marshall	ml3	7	storm drains	work with the DOT in order to improve storm drainage in the hamlet of Deansboro.
flooding	property protection	s	marshall	ml4	-3	clearing and snagging	perform clearing and snagging in the stream near Walt's garage in order to prevent flooding caused by debris jams.
water supply contamination	prevention	s	marshall	ml1	3	emergency plan	continue to keep water supply emergency plan up to date and incorporate table top excersizes to test the plan.
flooding	preventative	sc	new hartford t	nht1	5	stream gaging	gage streams in Sauquoit Creek basin to determine flood stage elevations.
all	education	sc	new hartford t	nht2	5	education	improve communication with the public in order to prepare for and respond to emergency situations without inducing panic.
drought	property protection	sc	new hartford t	nht3	-1	public water	extend public water in order to alleviate drought concerns in rural areas.

flooding	structural	sc	new hartford t	nht4	5	culverts	complete an inventory of culverts in order to determine condition and capacity.
flooding	property protection	sc	new hartford t	nht5	1	agriculture	identify farm tile drains that may contribute to flooding in residential areas.
flooding	preventative	sc	new hartford v	nhv1	3	stormwater	implement basin-wide stormwater management improvements.
utility failure	preventative	sc	new hartford v	nhv2	3	tree pruning	inventory dead or dying trees to remove per permission of Tree City USA
flooding	structural	sc	new hartford v	nhv3	-1	dams	create upstream detention areas and install streambank stabilization methods in order to prevent gravel bar formation at the Genesee stree bridge and the off ramps for Route 8.
all	emergency services	sc	new hartford v	nhv4	5	shelter	develop an emergency plan for the village that accounts for potential shelter locations and alternate power sources.
flooding	structural	sc	new york mills	nym1	5	storm drains	improve mapping and maintenance of storm drain system.
flooding	structural	s	ofalls	ofls1	3	retaining wall	replace aging and failing concrete retaining wall on the Oriskany Creek in the village of Oriskany Falls at the intersection of Madison Street and Broad Street.
flooding	structural	s	ofalls	ofls2	1	drainage	establish a permanent fix for stormwater runoff on College Hill Road,
flooding	structural	s	ofalls	ofls3	1	drainage	establish a permanent de-watering system for the Madison Street (12B) area consisting of drainage piping to a deep pump station and pipeline to the Oriskany Creek.
utility failure	emergency services	s	ofalls	ofls4	3	generator	obtain standby generator for the Village Hall
flooding	structural	s	ofalls	ofls5	1	stream	complete stream bank stabilization in the Broad Street area: this may be the same as ofls1
flooding	structural	s	ofalls	ofls6	1	stream	streambed work within the Village limits.
water supply contamination	property protection	w	oneida castle	oncst1	3	septic system	Seek funding to repair faulty septic systems that could contribute to pollution.
flooding	structural	sc	oriskany	or1	5	storm drain	replacment/upgrade of existing storm drain system.
flooding	natural resource protection	sc	oriskany	or2	3	streambank	investigate methods to prevent flooding onto Steel Treaters property.
flooding	preventative	sc	oriskany	or3	3	storm drains	address flooding issues on school property.
landslide	property protection	s	paris	par1	5	acquisition	complete acquisition of mudslide properties with Oneida County
utility failure	prevention	s	paris	par2	5	tree pruning	continue tree pruning activities to prevent damage to utility lines in the event of severe weather
wind	prevention	nc	prospect	pro1	5	tree pruning	prune trees near utility lines and critical facilities to reduce likelihood of power outages in severe weather.
wind	prevention	nc	prospect	pro2	5	verizon	work with Verizon to ensure that battery backup for phone service is fully functional in the event of a power outage.
flooding	structural	nc	prospect	pro3	3	culverts	identify and repair inadequate or damaged culverts.
landslide (erosion)	structural	nc	prospect	pro4	3	streambank stabilization	identify and prioritize highly erosive streambanks and complete streambank erosion control projects.
utility failure	education	ne	remsen t	remt1	3	communication	Develop an alternate means of communication during emergencies - don't rely on television if the power is out.
all	emergency services	ne	remsen t	remt2	7	911	work with Oneida County 911 to correct existing errors prior to initiating reverse 911 system.
all	emergency services	ne	remsen v	remv1	5	communication	improve communication among village emergency responders by purchasing mobile radio and several hand held radios that will be compatible with the Fire Department's equipment.

flooding	structural	ne	remsen v	remv2	-1	tree pruning	identify dead or dying trees along the corridor of the Cincinnati Creek; also remove existing snags in the section between John Street and the Falls.
flooding	emergency services	ne	remsen v	remv3	7	sand bags	obtain sand bags for emergency flood protection.
flooding	property protection	ne	remsen v	remv4	5	storm drains	complete engineering investigation of causes of Main Street flooding. Implement recommendations for improvement of storm drain system.
utility failure	emergency services	ne	remsen v	remv5	5	generators	replace the existing generator at the water tank.
flooding	property protection	w	rome	ro1	-3	acquisition	investigate acquiring or elevating homes that are at risk from flooding.
wildfires	education	w	rome	ro2	7	education	educate the public about the dangers of wildfires on the mucklands and in the sand plains of the City.
utility failure	preventative	w	sherrill	Sh1	-1	generators	Ensure that nursing homes have access to stand-by generators. Also, Oneida County should maintain a supply of generators that can be loaned to communities in the event of a disaster.
wildfire	emergency services	ne	steuben	st1&ava3	3	dry hydrants	identify areas where dry fire hydrants can be installed at higher elevations.
erosion	structural	ne	steuben	St2	5	gravel roads	Consider paving gravel roads (Booty Hill and Fink Road) to prevent repetitive losses due to erosion. Road washouts put 8 residences at risk (ie, lack of access for ambulances).
all	emergency services	nw	sylvan beach	sb1	5	shelter	utilize 2nd floor of firehouse as a shelter and ensure that all shelters, including the Village Hall, are handicapped accessible.
flooding	structural	nw	sylvan beach	sb2	1	lake	construct a sea wall on the boardwalk
all	emergency services	nw	sylvan beach	sb3	-1	shelter	work with Oneida Indian Nation on potential areas for temporary shelters.
utility failure	prevention	nc	trenton	Trtn1	3	tree pruning	prune trees near utility lines to prevent power outages in severe storms
all	emergency services	nc	trenton	Trtn2	3	generators	designate and equip shelter areas for disaster relief.
flooding	structural	nc	trenton	Trtn3	3	culverts	replace culvert on Whitaker Road to prevent flooding
flooding	property protection	nc	trenton	Trtn3	3	runoff	address local flooding issues especially on Posey Hill Road, Mallory Road, Curry Hill Road and Plank Road.
flooding	property protection	sc	utica	ut1	3	storm drainage	address recurring and damaging floods related to runoff in the Hallack's Ravine area. Projects would include acquiring property that would provide maintenance access, enclosing the storm system and installing more cleanout points.
flooding	structural	sc	utica	ut2	1	stream	work with the Thruway Authority to access flooding at mile marker 231.3 where an existing 48 inch pipe is blocked.
utility failure	preventative	w	vernon t	vnT1	7	tree pruning	identify and remove dead trees from vulnerable locations throughout the town.
flooding	property protection	w	vernon t	vnT2	-1	acquisition	acquire mobile homes in flood prone area where repetitive losses occur.
landslide	structural	w	vernon t	vnT3	5	streambank stabilization	complete erosion control projects along Oneida Creek and tributaries.
water supply contamination	property protection	w	vernon t	vnT4	-3	septic systems	replace faulty septic systems.
flooding	structural	w	vernon v	vnV1	3	sewers	repair sanitary sewers as their capacity is exceeded in severe storms where flooding is an issue. This is due to the fact that the bypass that used to outlet to Oneida Creek was closed by the DEC. Improve both the storm and sanitary sewer lines in the village.
all	education	w	verona	Va1	7	education	continue to sponsor the annual Fire Safety Expo to teach residents about emergency preparedness.
fires	prevention	w	verona	Va2	5	dry hydrants	install dry fire hydrants in several locations in order to ensure adequate water supply for fighting fires in rural areas.
water supply contamination	prevention	w	verona	Va3	5	manure storage	work with farmers to ensure that manure storage facilities are properly located, designed and installed in order to prevent potentially devastating spills.

utility failure	preventative	w	verona	Va4	3	generators	New London Fire Department is in need of generators.
all	emergency services	nw	vienna	vi1	3	generators	obtain generators for potential shelter areas including the 2 elementary schools in the Camden school district, the four fire departments and the town hall.
flooding	structural	ne	western	we1	7	drainageways	continue to maintain drainageways by identifying new obstructions and removing snags pending DEC permission.
wildfire	structural	ne	western	we2	7	dry hydrants	investigate new areas for dry fire hydrants and repair the existing hydrant on Stokes Westernville Road.
landslide	property protection	ne	western	we3	1	streambank stabilization	repair the eroding streambank on the Mohawk River upstream of the Stokes Westernville Bridge.
water supply contamination	property protection	w	westmoreland	wd1	3	public water	extend public water to include residents in Vernon, Verona and Westmoreland.
flooding	structural	sc	whitesboro	wtb1	3	storm drainage	enlarge storm sewer line along Main street, Clinton St., Westmoreland Street
flooding	education	sc	whitesboro	wtb2	7	education	educate the public about flood prevention & preparedness
ice jams	preventative	sc	whitesboro	wtb3	5	stream	remove debris and stabilize streambanks on the Sauquoit Creek in areas prone to ice jams and/or flooding.
ice jams	preventative	sc	whitesboro	wtb4	5	stream	work with CXS railroad on stream maintenance issues to prevent ice jams near the RR bridge.
erosion	property protection	sc	whitesboro	wtb5	3	stream	stabilize eroding streambanks in residential areas.
fuel shortage	preventative	sc	whitestown	wt1	3	alt fuel	contract with a local fuel supplier in order to obtain fuel at a steady price in the event of a fuel shortage. This is especially important if generators are to be used to power shelter areas.
flooding	property protection	s	w'vill/sang	wv/sang1	3	culverts	investigate causes and potential solutions for flooding issue at the bus garage.
dam failure	structural	s	w'vill/sang	wv/sang2	3	dam	investigate via an engineering study the most feasible and cost effective methods for collapsing the unused water supply dams per DEC's requirements.
flooding	prevention	sc	yorkville	yv1	5	stream	continue to maintain stream channels
flooding	prevention	sc	yorkville	yv2	3	stormwater	install drain pipe on Lincoln (paper street) in order to prevent future flooding in the residential neighborhoods downstream of Utica College. This pipe would be tied into Tabor and outletted to the existing storm drain system. Preliminary work has been completed by a local engineer.
utility failure	emergency services	sc	yorkville	yv3	5	generator	obtain generator for the firehouse; a current grant application has been submitted to FEMA.
